Mauran Kumar [redacted]
David Edgar [redacted]
Kholiwe Brown [redacted]
Elizabeth James [redacted]
Kathryn Hortense [redacted]

The executive is made up of all the officers and 3 additional people elected as stated here.

Report of the Year 2025

Report of the Year 2025

During the year we have still be unable to get any substantial coverage on national media. We have had some success with Christian media having both our President and vice President regularly on Revelation TV and our leader on Air TV weekly. We resorted to getting into the audience on GB news which we have once with some success at getting coverage there. We are hoping to increase this in 2026.

We had several candidates in the local elections 2025 but none made any breakthrough in terms of votes.

We have maintained regular contact with key church leaders and have developed a new relationship with Revival church in Welwyn Garden City which is connected to Rodney Howard Brown probably the most powerful revivalist in the world. This will be developed further in 2026. We've also maintained links with many other key church leaders.

We've kept our manifesto constantly under review and done many updates. In the 2024 General election our policy was to save £100bn on QUANGOs based on the fact that spending was £90bn in 2010 which in real terms was about £165bn then but had risen to £265bn so if we went back to 2010 levels of spending we could save £100bn. Amazingly the spending under Labour has risen to £391bn with 28 new QUANGOs set up so we are now saying we would save £200bn but getting rid of QUANGOs we don't want and reducing the budget of others. We would have a policy of all QUANGOs focussing primarily on professional standards. WE would get rid of almost all Environment QUANGOs which Labour have set up 7 new ones. Adding on savings from getting rid of social requirement of government contracts, £40bn, woke schemes throughout government, £20bn and introducing a turnover tax, £44bn we will save £304bn. This is 25% of total government spend none of which will affect front line services. With a budget deficit annually of £158bn we could reduce that by £65bn immediately and still have enough for our spending priorities and to reduce tax. Since these policies will bring growth we would aim to reduce it to zero very quickly. We believe CPA has by far the best manifesto of any political party. It is freely offered on our web site and we have encouraged other parties to read it and make use of the wisdom in it.

In 2025 we started looking forward to the London mayor election in 2028 and have lined up an excellent candidate for that. We are also constantly looking for good candidates and providing candidate training to equip them.

Aims for 2026

1. *Continue to advertise the party as much as we can using any media opportunities we can take.*

2. *Continue to grow our membership and supporters list to make the CPA a nationally recognised party.*

3 *Increase the candidates list and provide more training for candidates.*

4. *Help candidates to set up their own websites and use social media far more.*

5. *Increase our activity in by elections to include more canvassing and more use of social media.*

6. *Seek to raise more finance.*

Membership

As at 31st December 2025 there were:

Bank	- 84
